

RELEASE NOTES:

Summary

DF Studio is pleased to announce the latest point-release update, with fixes and useful enhancements to current features. As always, please reach out to DF Studio's support team with any feedback or questions about this update.

Bug Fixes

- Corrected an issue that caused files without file extensions to be skipped when uploading with certain upload tools.
- Resolved an issue that had prevented the VSP OFF permission from operating properly when configured at the Team level.

Adjustments

- Strengthened internal error logging to aid in timely troubleshooting of issues related to asset searching.
