

Version 52.34-35

Updated: 3/15/2020

RELEASE NOTES:

Summary

DF Studio proudly announces its latest software update, now available for all accounts. This version includes performance enhancements and resolves a number of issues that affected user workflows. As always, please reach out to DF Studio's support team with any feedback or questions about this update.

Bug Fixes

- Corrected a search indexing issue which prevented some assets from being searchable by metadata values that were embedded in the files before upload to DF Studio.
- Resolved an issue which prevented certain fields from being updated by CSV metadata import.
- Fixed a bug which had caused metadata changes to fail when clearing values from multiple assets.
- Resolved a problem which caused bulk image downloads to fail when initiated from certain watermarked Messengers.
