

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, now being deployed to all accounts. This update corrects a few minor issues with adding assets to Collections and the display of select levels and buttons. As always, please reach out to DF Studio's support team with any feedback or questions about this update.

Bug Fixes

Selects & Approvals

- Resolved an issue which prevented the select level buttons from appearing in some configurations.
- Addressed a problem which caused the "No Border" select level style from the Viewing Preferences to omit the display of select levels altogether.

File Management & Organization

- Corrected a bug which could result in a Collection appearing in the Move to Collection overlay in situations where the user lacks the appropriate permissions to move assets there.
- Resolved a problem which caused the quick-access buttons for some Collections to be erroneously disabled.
