

## Version 2021.2.4

**Updated:** 11/8/2021

### RELEASE NOTES:

#### Summary

DF Studio proudly announces its latest software release, which is now being deployed to all accounts. This update improves the reliability of uploading files, and addresses a few additional bugs to improve the DF Studio experience. As always, please reach out to DF Studio's support team with any feedback or questions.

#### Bug Fixes

##### Messengers

- Addressed a layout issue which caused informational overlays to be displayed improperly in some Messengers.

##### Selects & Approvals

- Corrected a bug which allowed the kill threshold of an Approval Messenger to be exceeded under very specific conditions.

##### Uploads & Assignments

- Updated software packages related to image processing, in order to support preview generation when uploading HEIC files.
- Resolved an issue which could cause the upload progress to report inaccurate numbers when uploading files with certain characters in the filename.

##### File Management & Organization

- Fixed a bug which caused certain assets to display an error instead of a preview in the Quick Look overlay.
