

Version 2022.2.5-2022.2.6

Updated: 9/2/2022

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. This update enhances the custom metadata functionality around specific tools, and fixes minor bugs related to metadata editing. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Metadata

- Multiple small enhancements have refined the user experience for custom metadata fields configured to capture the relationship between persons shown in an image and their role(s) in a production.

Bug Fixes

Metadata

- Resolved an issue which could cause values added to a metadata field to be duplicated when using Metadata Terms.

File Management & Organization

- Addressed a configuration error which affected DF Studio's ability to generate full-length previews of video assets.
