

Version 2022.4.3

Updated: 3/30/2023

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Asset Storage

- The data shown in the history graph of the Storage Overview panel can now be downloaded in a CSV file.

File Management & Organization

- Icon sizes and spacing have been improved throughout the View Menu.
- Text throughout the Asset History tab has been clarified and streamlined.
- The descriptive tooltips in the Permissions overlay have been updated for greater clarity.

Bug Fixes

Messengers

- Addressed a bug which caused the Setups menu in DF Studio Messengers to hide all assets under some circumstances.
- Fixed a problem which prevented the metadata panel from behaving as expected when previewing a Messenger before sending.

Account Administration

- Resolved a bug which could prevent users from adding or updating billing information.
- Fixed an issue which prevented the Contacts list from updating after deleting a contact.

File Management & Organization

- Corrected an issue which prevented overlays to be opened by double-clicking in some cases.
- Fixed a bug which caused unexpected behavior when trying to load folder views in rare instances.
- Replaced the blank options for Project Type or Project Status in the Project Details view.

Version 2022.4.3

Updated: 3/30/2023

Users & Teams

- Resolved an issue which could cause the permission checkboxes on the Edit User page to behave erratically when adjusting base permissions.

Security & Protection

- Patched an unexploited vulnerability to enhance the reliability of login authentication events.
