

Version 2022.4.4

Updated: 5/22/2023

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Uploads & Assignments

- Removed references to the deprecated DFS Speed Link application from system-generated email regarding Assignments and Upload Keys.

File Management & Organization

- Updated the Dashboard view (for accounts that feature the Dashboard) with clearer and more inviting information for first-time users.
- Visually refreshed icons and announcement colors for greater clarity and consistency.

Bug Fixes

Messengers

- Addressed a problem which caused long delays when editing the expiration date on certain Approval Messengers.

File Management & Organization

- Fixed a bug which prevented the display of Setups in the Project Details view of Projects with only one Setup.
- Resolved a problem which created unwanted results when submitting the Move to Setup overlay with the return key.
- Addressed an issue which blocked the proper operation of the "Delete" button from the Project Details page.

Security & Protection

- Strengthened the processing of text input in workflows like Assignment generation and Messenger configuration, to prevent sophisticated attackers from causing unintended behavior.
