

Version 2023.1.3

Updated: 10/17/2023

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Account Administration

- The visuals and performance of the Activity Monitor have been further refined to enhance its usability.

Bug Fixes

Account Administration

- Fixed a configuration error which prevented account administrators from seeing the link to manage users and teams within DF Studio settings.
- Resolved a bug which could cause the Viewing Preferences panel on the Activity Monitor to become inaccessible under certain conditions.
- Corrected an issue which prevented scrolling down the list of messages in the Inbox when the list exceeded the current page view.

Asset Workflows & Organization

- Fixed a bug which prevented searching by DFS ID in the global search box.
- Addressed an issue which caused video previews to display at a smaller size than expected in full-screen mode.
- Resolved a problem which copied the wrong Upload Key URL when using the dedicated Project Inspector button to copy an Upload Key to the clipboard from more than one Project in a row.
- Corrected a bug which prevented the badge filters from appearing at the top of the workspace while in use.
