

Version 2024.1.3

Updated: 10/7/2024

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Metadata

- The "Star Rating" field has been improved for more reliable searching and greater clarity when configuring a search query.

Asset Workflows & Organization

- The descriptions for configuring an Advanced Search based on numeric values have been updated for greater clarity.
- Clearer messaging now appears when attempting to navigate to a Library folder that no longer exists.

Bug Fixes

Messengers

- Addressed an error which could occur when attempting to view the contents of a Multi-Messenger by double-clicking the Messenger from the listing in the Messenger tab.
- Rectified a problem which could create confusion by trying to filter Messenger assets to a Setup when that Setup had been changed or removed.

Account Management

- Fixed a bug which could cause the Standard Users tab to appear empty on the Users & Teams settings screen when first accessed.

Asset Workflows & Organization

- Corrected an issue which caused PDF proofsheets to stall.
- Mitigated an anomaly which placed non-watermarked PDF proofsheets in the Activity Monitor and labeled them as though they had been watermarked.
