

Version 2024.1.4

Updated: 10/21/2024

RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Metadata

- When modifying metadata for multiple selected assets, the interface now offers additional information about metadata values that vary among the assets selected, with enhanced controls for the addition or modification of data.

Bug Fixes

Metadata

- Rectified a problem which caused values from the Person/Role field to be written to file metadata in an improper format.

Uploads & Assignments

- Addressed an issue which could cause failures when importing files with certain date formats in the DateTimeOriginal metadata field.

Asset Workflows & Organization

- Updated the title of the Find Within Project overlay for correctness.
