RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Metadata

- The metadata editor panel and controls have been improved for a more consistent and intuitive interface.

Bug Fixes

Metadata

- Addressed an issue which could cause the input text box to exhibit unusual behavior in some metadata fields.
- Corrected an anomaly which displayed the "Copy" button for metadata fields that had no values to copy.

Uploads & Assignments

- Resolved a bug which could add unnecessary metadata writing operations to the task queue when uploading or importing files.

Account Management

- Adjusted the description of the account Copyright Notice configuration for clarity.

Asset Workflows & Organization

- Fixed a problem which could cause Library views to revert to Column View unexpectedly.
