RELEASE NOTES:

Summary

DF Studio is pleased to announce its latest software release, which is now being deployed to all accounts. As always, please reach out to DF Studio's support team with any feedback or questions.

Enhancements

Uploads & Assignments

- The Upload Monitor screen for configuring a multi-folder upload has been updated for greater clarity.

Bug Fixes

Messengers

- Mitigated a fault which caused delays in the processing of Messenger Import tasks under certain circumstances.

Asset Storage

- Corrected a misconfiguration which caused the Storage Overview to omit items using less than 1% of the account's total storage.

Uploads & Assignments

- Addressed a bug which caused Setup keyframes not to be generated in some cases.
- Restored the proper icon size to the icons in the Upload Monitor task queue.

Account Management

- Patched an anomaly which could allow users in an account with the Protected option active in Contact Sharing to delete a contact they didn't own.
- Resolved an error which would appear when creating a new contact group.

Asset Workflows & Organization

- Addressed an issue which caused excessive delays when using the "Select All" feature in larger Projects or Collections.
- Fixed a bug which prevented the History tab in the Asset Inspector from populating under specific circumstances.
